

## LIHSA Bulletin Board Rotation Schedule 2020-21

School bulletin boards are a tool for conveying to visitors and a school's own inhabitants what the school and its students' study and accomplish. They can reveal a thriving learning community excited by its work, ideas and discoveries. You have been furnished with bulletin boards outside your classroom or in a central hallway. It is imperative that your bulletin boards not be left blank, that you fill them with creative, colorful displays of student work and/or subject area news and information, and that your board is maintained and updated monthly. Please help our school announce to the world that we are productive, that we are inspired by, and interested in, what we do together at Long Island High School for the Arts!
